**GitHub:** <https://github.com/SyedSameerRizvi>

**Address:** Karachi, Pakistan

I am a 7th-semester Data Science student at DHA Suffa University with expertise in Python, machine learning, and data visualization. I have experience in data preprocessing, analysis, ingestion, and warehouse management. I am proficient in Python, and skilled in tools like Jupyter, PyCharm, and VSCode. I have worked on various projects, including a Rain Prediction App, NVIDIA Stock Price Prediction, and Customer Churn Classification. Additionally, I have developed generative AI applications, such as an Enhanced Q&A Chatbot and a SQL Database Chat Assistant, leveraging LangChain, AI APIs, and large language models.

---

## SKILLS

---

### Data Science

Data Preprocessing,  
Data Analysis,  
Data Ingestion,  
Data Visualization,  
Data Warehouse,  
Machine Learning Algorithms

### Programming Languages

C,  
Java,  
Python

### Tools

Jupyter,  
Pycharm,  
VSCode

### Soft Skills

Problem Solving,  
Team work,  
Presentation,  
Communication Skills

---

## EDUCATION

---

**DHA Suffa University** | Bachelor's in Data Science

Karachi, Pakistan | **2022 - 2026**

- **Cumulative GPA:** 3.67/4.00

---

## PROJECTS

---

- |   |   |
|---|---|
| - Rain Prediction App (2024-2025)         | - NVIDIA Stock Price Prediction         |
| - Customer Churn Classification using ANN | - Salary Prediction using ANN           |
| - SQL Database Chat Assistant             | - Youtube/Website Summarizer App        |
| - Enhanced Q&A Chatbot                    | - People Personality Prediction Project |

---

## CERTIFICATES

---

- Python Developer Course (Udemy)
- Complete Generative A.I Course with LangChain and HuggingFace (Udemy)
- Complete A.I, & Machine Learning, Data Science Bootcamp (Udemy)
- Google Data Analytics Course: Foundations: Data, Data everywhere. (Coursera)
- Google Data Analytics Course: Ask questions to make Data-Driven decisions. (Coursera)

---

## SOFTWARES

---

- **Operating Systems:** Windows 11.
- **Data Analysis Tools:** Matplotlib, Seaborn,.
- **Machine Learning/AI Tools:** TensorFlow, Scikit-learn, Keras, LangChain, AI-APIs.
- **Communication/Collaboration Tools:** Microsoft Teams, Zoom, Google Meet.
